

July 9, 2018

Dear Stauf Adhesives Customer:

Thank you for your inquiry about Stauf Adhesives and for your interest in using construction materials that meet or exceed environmental indoor air quality standards in both Europe and the U.S.

STAUF USA, LLC, is proud of their record as a leader in the development of environmentally friendly products. Stauf is a founding member of the Association for the Control of Emission in Products for Flooring Installation (GEV), a European industry association, whose goals are to promote the safety of consumers, trades and the environment in the field of chemical construction materials. You will find that our products have received the GEV's highest certifications for meeting environmental standards, the coveted EMICODE EC 1®.

We are also a member of the U.S. Green Building Council (USGBC), a 501(c)(3) non profit composed of leaders from every sector of the building industry working to promote buildings and communities that are environmentally responsible, profitable and healthy places to live and work. USGBC has developed the LEED® (Leadership in Energy and Environmental Design) Green Building Rating System. The LEED Rating System is the nationally accepted benchmark for the design, construction, and operation of high performance green buildings.

With this document, STAUF USA declares that the products listed in the attached "LEED Qualified Products" comply with Rule 1168 of California's South Coast Air Quality Management District's Volatile Organic Compounds (VOC) limits. These are the mandatory requirements set by the USGBC LEED program for Indoor Environmental Quality.

These Stauf products can contribute to your qualification efforts for LEED certification under Indoor Air Quality Section 4.1 – Low Emitting Materials: Adhesives and Sealants, as specified in the Green Building Rating System guideline V.2.2. The intent of this LEED credit is to reduce the quantity of indoor air contaminants that are odorous, potentially irritating, and / or harmful to both installers and occupants.

You may find additional information for download from our web site at [www.staufusa.com](http://www.staufusa.com). Or you may call us at 866.GLUE USA (866.458.3872).

Thank you for your interest and for your support of the use of environmentally sound products in your profession.

Cordially,

Mark Long  
Technical Director

## Stauf's LEED Qualified Products

### Sub Floor Prep

CCF-40 Concrete Crack Filler  
DJF-60 Dynamic Joint Filler  
ULC-500 LevelSeal

### Sub Floor Primer

AQP-200 Eco-Prime

### Sub Floor Sealer

ACS-210 True-Seal  
VPU-155" S" Urethane Sealer  
ERP-270 Perma-Seal®

### Wood Adhesive

WFR-930 Solva-Mastic®  
PUM-950 Power-Mastic  
SMP-960 One-Step®  
PUM-955 Ultra-Nail®  
CBR-970 Renovator  
TGL-810 Tongue/Groove Glue  
AUM-854 Contractor's Acrylic-Urethane Wood Adhesive  
PUK-455 Wide Plank Adhesive
